21	REPORTED BY:
22	EARLY K. LANGLEY RMR, RSA, B.A.
23	CSR NO. 3537
24	JOB NO: 6298688
25	
	Page 282

1	Q. That's life.	
2	A. I'm talking to myself.	
3	Okay. I have it.	
4	Q. Okay. So the color in parallel for this	
5	particle, M71614-001CSM-001, is that the	08:38
6	approximate color that you identified it as in	
7	parallel where it's circled	
8	A. If you go around the edge of the bundle,	
9	it's a purplish color.	
10	Q. Okay. And then this particle, the next	08:39
11	one, does that appear accurate? This is now	
12	M71614-001CSM-002?	
13	A. Again, let me get to it.	
14	Q. Sure.	
15	A. My book is out of order. Somebody is	08:39
16	messing with me.	
17	Q. I wish I could claim credit for that,	
18	but	
19	A. I understand.	
20	1.65, right. 1.68.	08:39
21	I just looked at this, I thought, last	
22	night.	
23	Okay. 1.002. Here's 002.	
24	Okay, I have it.	
25	Q. Again, are the circled colors	08:39
	Page	308

1 approximately what you're identifying as particle 2 in parallel as the color? 3 A. Yes. It's what -- you don't see it too 4 well on that photograph, but I'm looking at this 5 one, which I can see the outer -- you know, the 08:40 outer edge of the bundle does have that kind of 6 7 purplish color. O. And then next particle, M71614-001CSM-003, 8 9 are the circled numbers approximately what you're 10 calling this particle for purposes of your 08:40 analysis? 11 12 003. Α. 13 168, so we're getting -- starting to get 14 up into the reddish range, pinkish-red. Yeah, 15 that one is blown up some, so I can see it on the 08:41 outer side, on the outer edge -- on the edge of 16 17 the bundle. So yes, I'm good with that. 18 Okay. Last one, I think, Ο. 19 M71614-001CSM-004. Is the circled range what --20 approximately what you're calling this for 08:41 purposes of your analysis? 21 22 A. Let's see. We've got purplish to red to pink. Yes, that's good. 23 24 O. Okay. Great. Let me just ask you, since you brought it and we marked it as 36, what do you 25 Page 309

1 at least two orders of magnitude higher. Q. And so that -- that opinion would apply to 2 3 any cosmetic talc sold by any retailer, large or 4 small, in the United States at any point in time; 5 correct? 12:53 Yes. But just to make it careful, it's 6 7 the -- I'm not aware of any other mines than I've 8 already stated in the United States and I'm not 9 aware of any other mines for cosmetic talcs in 10 Europe or Asia such as Chinese, such as Italian, 12:53 such as France, such as Brazil, and such as India. 11 12 Q. But North America, you're -- are you 13 confident in saying that there's asbestos in every 14 bottle of cosmetic talc that was sold at any time in North America? 15 12:54 Any bottle that was sold in North America 16 17 that used a mine source for cosmetic talc in North America will have some level of asbestos in it, 18 19 and it just depends on the detection limit is --20 if we can find it or not. So it's all about 12:54 detection limits. 21 22 Okay. But let me take that a little bit 23 further. 24 Do you have an opinion as to what percentage of that talc is at a detection limit 25 12:55 Page 449

3	REPORTER'S CERTIFICATE
4	
5	
6	I, EARLY LANGLEY, a Certified Shorthand
7	Reporter, State of California, do hereby certify:
8	That WILLIAM LONGO, Ph.D., in the foregoing
9	deposition named, was present via Zoom and by me
10	sworn as a witness in the above-entitled action at
11	the time and place therein specified;
12	That said deposition was taken before me
13	via Zoom at said time and place, and was taken
14	down in shorthand by me, a Certified Shorthand
15	Reporter of the State of California, and was
16	thereafter transcribed into typewriting, and that
17	the foregoing transcript constitutes a full, true
18	and correct report of said deposition and of the
19	proceedings that took place;
20	IN WITNESS WHEREOF, I have hereunder subscribed my
21	hand on November 6, 2023.
